Treasurer's Report

★ ★ ★ ★ ★

WILLIAM J. SCOTT

TREASURER OF THE STATE OF ILLINOIS
SPRINGFIELD

WILLIAM J. SCOTT
TREASURER

January, 1966

Dear Friends:

During the three years I have served as State Treasurer, our office has earned over 61 million dollars on the investment of "idle" State funds, or an average of $1,604,822 a month. These earnings do not include the many millions of dollars earned for such agencies as the Illinois Toll Highway Commission, The Illinois Building Authority and the various pension funds.

As the following comparative figures show, our average monthly earnings on Treasury funds are by far the highest in the history of the Treasurer's Office.

John Stelle	$ 10,540
John C. Martin	11,741
Louie E. Lewis	9,722
Warren Wright	111,097
William G. Stratton	119,778
Conrad E. Becker	103,637
Richard Yates Rowe	212,094
Ora Smith	209,614
Elmer J. Hoffman	306,907
Joseph D. Lohman	521,630
Francis S. Lorenz	623,726
William J. Scott	1,604,822

The vast bulk of the State funds are now invested in time deposits in over 1,000 different financial institutions throughout Illinois.

Sincerely yours,

William J. Scott

William J. Scott
Treasurer of the State of Illinois

Treasurer's Report

★ ★ ★ ★ ★

WILLIAM J. SCOTT

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

March, 1966

WILLIAM J. SCOTT
TREASURER

Dear Friends:

Monthly earnings on the investment of surplus State funds passed the two-million-dollar mark for the first time in history during March, and brought our total earnings during my term as State Treasurer to over 72 million dollars.

Earnings on regular State funds amounted to $1,891,980, which, added to Illinois Toll Highway Fund earnings of $136,237, and Illinois Building Authority earnings of $207,854, brought the total State earnings to $2,236,071 for the month of March.

You will notice from the center spread that the surpluses in the State's General Revenue and Common School funds have reached a total of almost 155 million dollars, the highest point in the last fifteen years. Even after subtracting all outstanding warrants, as of March 31, 1966, we had a surplus in all of the General Revenue funds, including Common School and Welfare, of $154,908,564, or an increase of $10,504,436 over the March 31, 1965, figure. The Road Fund had a surplus of $80,932,918, or $9,737,071 more than the balance a year ago.

In addition to these figures, the last session of the legislature gave the Governor authority to transfer surpluses from the Agricultural Premium and the Service Recognition accounts to General Revenue. As of March 31 the combined surplus in the two accounts amounted to $87,602,953, and it continues to increase every day.

Best regards,

William J. Scott

William J. Scott
Treasurer of the
State of Illinois

WILLIAM J. SCOTT

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

April, 1966

WILLIAM J. SCOTT
TREASURER

Dear Friends:

During my three years in office, the operating costs of the State Treasurer's Office have dropped steadily, while our earnings on the investment of idle State funds have risen each month to record-breaking new levels.

Our payroll has been cut 41 percent. As of the end of April, there were 122 people on the State Treasurer's payroll, compared to 208 on April 30, 1962, and 207 when I took office in January, 1963.

Earnings on the investment of surplus State funds were the highest for any April in history. April earnings on regular State funds amounted to $1,849,304, which, added to Illinois Toll Highway earnings of $176,289, and Illinois Building Authority earnings of $200,854, brought the total State earnings to $2,226,447 for the month of April.

The record investment income for April brought our total earnings to more than 75 million dollars. The previous record for earnings on State funds was less than 17 million dollars, and was set during the three-and-a-half year period from January, 1959, through August, 1961.

Best regards,

William J. Scott

William J. Scott
Treasurer of the
State of Illinois

WILLIAM J. SCOTT

INDIANA UNIVERSITY
OCT 19 1966
LIBRARY

Sealed applications for State funds, at the highest interest rates in history, were received by the Treasurer's Office from more than 1,000 financial institutions throughout Illinois. State Treasurer William J. Scott (right) is shown opening the bids, on September 6, with Attorney General William Clark (left) and State Auditor Michael J. Howlett.

LIBRARY

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

May, 1967

FRIENDS:

I am pleased to provide you with this report on the State's finances and the operations of the State Treasurer's Office for the month of April.

We have made a number of changes both in format and in the data included for the Treasurer's monthly reports. These innovations are being made in order to provide more accurate, relevant and timely data on State finances and the operations of this office.

Included in this report for the first time is data concerning investment income. Another innovation is a report on the demand (non-interest bearing) deposits of the State. Also, the report of State income and expenditures has been expanded to include cumulative totals for the biennium to date. This information will be provided on a monthly basis.

I hope that all this information furnished within a few days after the close of each month will allow the reader to obtain a more thorough understanding of the State's financial position.

I want to provide timely data in an understandable and useful manner. Your comments and suggestions would be welcome.

Sincerely,

Adlai E. Stevenson III
State Treasurer

EARNINGS ON STATE INVESTMENTS

STATE OF ILLINOIS
TREASURER'S REPORT

MAY 1967

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

INDIANA UNIVERSITY
APR 12 1968
LIBRARY

ADLAI E. STEVENSON III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

ADLAI E. STEVENSON III
TREASURER

June, 1967

FRIENDS:

I am pleased to provide you with this report for the month of May on the State's finances, and operations of the State Treasurer's Office.

The month of May resulted in an interruption of the upward trend in earnings which began in January. While lower interest rates were a contributing factor, the principal problem was a sharp decline in funds available for investment. Cash balances in the Regular Funds of the State declined more than $42 million during May, resulting in the need to liquidate investments yielding 4% to 4 1/2%. This trend may continue in June, as the Biennium draws to a close.

A number of changes in format and data were made in the Treasurer's Report last month in the hope of providing more specific information on the operations of the Treasurer's Office. This month in order to assist the reader in interpreting the data, explanatory footnotes are included.

If you wish to receive this report on a monthly basis, please let me know.

Sincerely,

Adlai E. Stevenson III
State Treasurer

EARNINGS ON STATE INVESTMENTS

SUMMARY

	Earnings on Regular State Funds	Total Earnings
December, 1966	$1,726,746	$2,395,265
January, 1967	$1,860,084	$2,514,304
February, 1967	$2,020,598	$2,676,190
March, 1967	$2,162,994	$2,816,889
April, 1967	$2,176,761	$2,794,854
May, 1967	$2,056,184	$2,690,302

Other Investments:		44,866
	TOTAL	$ 197,345
TOTAL INTEREST EARNED FOR MAY, 1967		$2,690,302

COMMENT

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

STATE OF ILLINOIS
TREASURER'S REPORT

JUNE 1967

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

INDIANA UNIVERSITY
APR 5 1968
LIBRARY

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

July 11, 1967

FRIENDS:

The report for the month of June on the State's finances and the operations of the State Treasurer's Office fills the pages which follow.

For the fifth consecutive month, the earnings on the Treasurer's investments exceeded the $2 million level. In accord with our predictions, earnings have declined 2.31% from May due to the decline of more than $21 million in funds available for investment. However, the State's non-interest bearing demand accounts have now been reduced by 96% since December to a level of $2,240,000 for June. The average return on the investment of State funds has reached a record of 4.19%.

The report of Receipts, Expenditures, Transfers and Balances has been revised to provide not only June transactions but the final data for the 74th Biennium which ended June 30, 1967.

A schedule of Primary General Revenue Tax Sources has been added to give you a current report on tax receipts for the month and biennium with comparative figures for the preceding biennium.

With the inclusion of the information about tax receipts we are now providing you with the most prompt and comprehensive source of fiscal information generally available concerning the State. Any suggestions for improving this service will be welcome.

Sincerely,

Adlai E. Stevenson III
State Treasurer

TOTAL INTEREST EARNED FOR JUNE, 1967		$2,632,884

COMMENT

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

STATEMENT OF DEMAND BALANCES

JUNE, 1967

State Balances
Excluding Federal
Trust Funds

-000-

December, 1966	$ 55,807

American Nat'l. Bank	$ 2,132,882	$ -------	$ 813,300	$ 2,946,182
Ill. Nat'l. Bank of Springfield	$ 1,073,123	$ -------	$ -------	$ 1,073,123
TOTAL	$ 2,860,146	$ (620,328)	$14,544,087	$16,783,905

COMMENT

A fiscal enterprise the size of the State government must maintain substantial funds in demand accounts with banks. These are available in the Regular accounts for the payment of outstanding warrants. Tax receipts and other income are deposited during the clearing process in the Clearing Accounts. Funds in both the Regular and Clearing Accounts are held to the minimum necessary level. In addition to State funds, the State Treasurer designates certain banks as a depository of Federal Trust Funds.

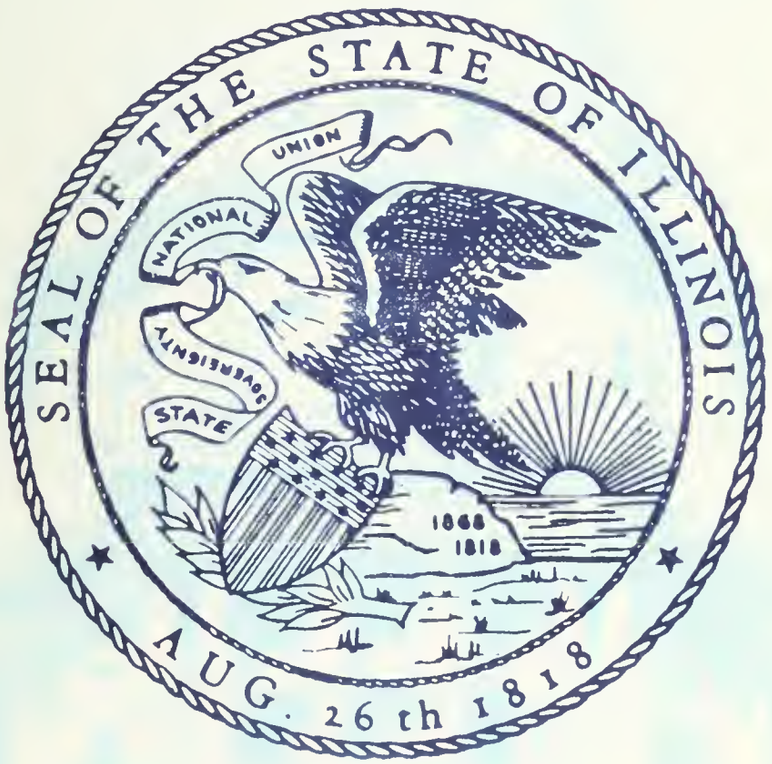
STATE OF ILLINOIS
TREASURER'S REPORT



JULY 1967

INDIANA UNIVERSITY
AUG 22 1967
LIBRARY

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD,

ADLAI E. STEVENSON III
TREASURER

August 9, 1967

FRIENDS:

July was a very busy month in the Treasurer's Office, marked by two major steps in its reorganization. The data processing functions of our warrant division were transferred from the Harris Trust and Savings Bank of Chicago to the Springfield Marine Bank. This change will produce greater efficiency and new economies as a gradual transfer is made from obsolete punch card equipment to computer processing. We are very pleased to be associated with the Marine Bank.

By the time you receive this letter we will have transferred the securities now held in our vault to the vaults of the Continental Illinois National Bank of Chicago and the First National Bank of Springfield. These banks are equipped to hold and process such securities more efficiently and economically than we can. The transfer was made possible by legislation enacted in the 75th General Assembly. The results of the transfer will be more efficient operations and new economies for the taxpayers.

Largely in response to lower interest rates and the maturity of time deposits made during a period of higher yields, earnings on state funds declined 2.9% in July from June. Earnings for July totaled $1,951,138 or 12% above the December, 1966 figure of $1,723,022. In spite of lower interest rates, the average return on the investment of state funds in July was 4.08% or 11% above the December return of 3.77%.

With best wishes.

Sincerely,

Adlai E. Stevenson III

Adlai E. Stevenson III
State Treasurer

TOTAL INTEREST EARNED FOR JULY, 1967		$2,564,153

COMMENT

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

TOTAL	$ (48,900)	$ 2,636,300	$24,528,280	$27,115,680

COMMENT

A fiscal enterprise the size of the State government must maintain substantial funds in demand accounts with banks. These are available in the Regular accounts for the payment of outstanding warrants. Tax receipts and other income are deposited during the clearing process in the Clearing Accounts. Funds in both the Regular and Clearing Accounts are held to the minimum necessary level. In addition to State funds, the State Treasurer designates certain banks as a depository of Federal Trust Funds.

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

INDIANA UNIVERSITY
APR 9 1968
LIBRARY

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

September 14, 1967

FRIENDS:

August was a very busy month in the Treasurer's Office as we prepared for the September 1 maturity of $133 million in bank time deposits throughout the State. The situation was complicated by the need to liquidate more than $51 million of such deposits to meet anticipated cash requirements during September. Having provided for such withdrawals, all remaining deposits were renewed at 4% for thirty-one days, in order that we might have adequate time to study all applications for new deposits.

It is likely that few banks in the State will be happy with our actions on their applications for deposits of State funds. Another $31 million must be withdrawn in October to meet anticipated immediate cash needs of the State, leaving only $50 million to invest in the banks this October. And against that we have applications from banks for over $670 million in deposits!

With these applications for deposits, and only $50 million to allocate, our task will be understandably difficult. We will give careful consideration to community needs and bank services. And we expect to distribute funds in a way that will be fair to all the banks and communities in the State.

In February, an additional $300 million in State deposits will mature and be reallocated after another general solicitation of deposit applications.

With best wishes.

Sincerely,

Adlai E. Stevenson III

Adlai E. Stevenson III
State Treasurer

TOLL ROAD		
Time Deposits:		$ 108,809
Other Investments:		$ 76,146
	TOTAL	$ 184,955
TOTAL INTEREST EARNED FOR AUGUST, 1967		$2,525,805

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

COMMENT

A fiscal enterprise the size of state government must maintain substantial funds in demand accounts with banks. Tax receipts and other income are deposited during the clearing process in Clearing Accounts. After clearing, the funds are transferred to the Regular Accounts where they are available to meet the state's obligations. In addition to investing state funds, the State Treasurer designates certain banks as depositories of Federal Trust Funds.

Funds in both the Regular and the Clearing accounts are held to the minimum necessary level. The deficits above reflect charges to our internal accounts that have yet to be charged to our accounts with the banks. They are the result of in-transit items in our normal bookkeeping cycle.

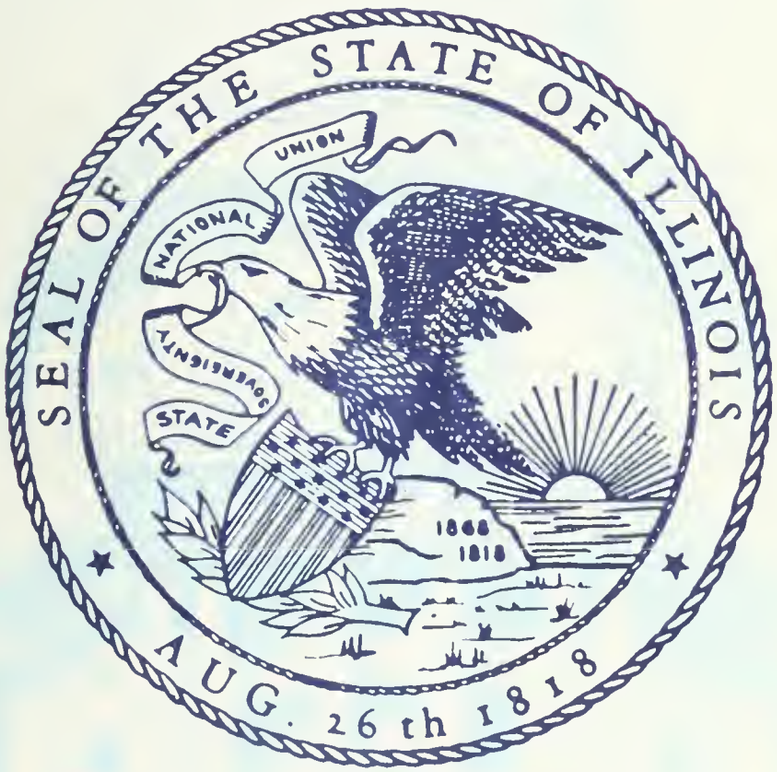
TREASURER'S REPORT



SEPTEMBER 1967

INDIANA UNIVERSITY
OCT 25 1967
LIBRARY

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

October 13, 1967

FRIENDS:

September proved to be a month of material change in the investment position of the State, adversely affecting deposits of State funds in the State's banks. As the result of a significant excess of State expenditure over income, the State's total regular fund balances declined to $441,000,000, the lowest level since December, 1962. The decline in September was $85,000,000, the largest single month reduction in the history of the State.

It has been necessary to reduce or eliminate many of our bank deposits in order to pay the State's bills. Of total deposits of $133,000,000 maturing September 1, $91,000,000 had to be withdrawn to meet State expenditures, primarily for education and roads. Of the remainder, more than $20,000,000 was placed in accounts maturing or callable within a month. This decline in the amount of State funds available for investment will obviously affect investment earnings.

Based on a continuing income deficiency so far in October, it appears likely that most if not all such short term deposits will have to be withdrawn in the near future. We're caught between seasonally high expenditures and low revenues. By early next year expenditures should have declined slightly and revenues increased as new taxes begin to bear fruit. It is unlikely, however, that there will be a significant improvement in bank deposit levels or State earnings in the foreseeable future.

This fiscal situation is no cause for alarm, at least not for the present, but it has been impossible to recognize the many banks throughout the State that have written to inform us of their special services to the State and their communities. In February, however, more than $300 million of State deposits will mature, and such factors will be given careful consideration in the reallocation process.

With best wishes.

Sincerely,

Adlai E. Stevenson III
State Treasurer

Time Deposits:		$ 186,878
Other Investments:		$ 32,666
	TOTAL	$ 219,544
TOTAL INTEREST EARNED FOR SEPTEMBER, 1967		$2,612,798

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

COMMENT

A fiscal enterprise the size of state government must maintain substantial funds in demand accounts with banks. Tax receipts and other income are deposited during the clearing process in Clearing Accounts. After clearing, the funds are transferred to the Regular Accounts where they are available to meet the state's obligations. In addition to investing state funds, the State Treasurer designates certain banks as depositories of Federal Trust Funds.

Funds in both the Regular and the Clearing Accounts are held to the minimum necessary level. The deficits above reflect charges to our internal accounts that have yet to be charged to our accounts with the banks. They are the result of in-transit items in our normal bookkeeping cycle.

TREASURER'S REPORT

OCTOBER 1967

INDIANA UNIVERSITY
NOV 27 1967
LIBRARY

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

November 14, 1967

FRIENDS:

As predicted in last month's report, State cash balances declined in October for the third successive month. The net cash loss since July 1 is approximately $131,000,000, with a further decline in prospect for November.

In order to provide adequate cash to meet the State's obligations, it has been necessary to reduce or eliminate many bank deposits in recent weeks. I inherited more than $300,000,000 in time deposits which will continue to be out of my control until their maturity next February. The burden of reducing deposits has, therefore, fallen on only a portion of all State banks.

Another consequence of the State's cash loss has been a sharp decline in interest earnings. October interest receipts were $1,701,093, down from $1,959,680 in September and the record high of $2,176,056 in April. We are pleased to report, however, that the October yield on all State funds rose to 4.24%, or 12% above the 3.86% yield for December, 1966.

I don't view this depletion of the State cash resources with alarm -- although certainly the trend cannot continue much longer. The State should not raise in taxes more cash than it needs and, of course, it should spend the cash required for legitimate public purposes. In the past cash has often laid idle in the State Treasury; at most it has only earned interest for the State. We are working now to refine some new means of assuring that all such "idle" funds are always working actively for their owners -- the people. More on that later.

With best wishes.

Sincerely,

Adlai E. Stevenson III
State Treasurer

Time Deposits:		$ 201,438
Other Investments:		$ 32,666
	TOTAL	$ 234,104
TOTAL INTEREST EARNED FOR OCTOBER, 1967		$2,354,691

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

COMMENT

A fiscal enterprise the size of state government must maintain substantial funds in demand accounts with banks. Tax receipts and other income are deposited during the clearing process in Clearing Accounts. After clearing, the funds are transferred to the Regular Accounts where they are available to meet the state's obligations. In addition to investing state funds, the State Treasurer designates certain banks as depositories of Federal Trust Funds.

Funds in both the Regular and the Clearing Accounts are held to the minimum necessary level. The deficits above reflect charges to our internal accounts that have yet to be charged to our accounts with the banks. They are the result of in-transit items in our normal bookkeeping cycle.

TREASURER'S REPORT

INDIANA UNIVERSITY
JAN 3 1968
LIBRARY

NOVEMBER 1967

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

December 21, 1967

FRIENDS:

The decline in state balances which began last July is following a seasonal trend. Revenues are increasing while expenditures have leveled off in a normal seasonal pattern. The total fund loss of the past five months, however, has been of major proportions. Average daily investment balances of regular state funds were $467 million in November, down $163 million from last February.

The effect on earnings has been significant. November investment income declined to $1,634,558, or 25% below the record high of $2,170,656 achieved last April. In contrast, the average investment yield was 4.2% or 9% above the 3.83% yield of last December.

In February, almost $300 million in state time deposits will mature and be reallocated. Application forms and a copy of the State Treasurer's 1968 Investment Program were forwarded recently to all banks in the state. These forms will provide banks with an opportunity to obtain a pro rata share of state funds available for deposit and additional deposits under the Investment Program to help meet special community needs.

With best wishes,

Sincerely,

Adlai E. Stevenson III
State Treasurer

TOTAL INTEREST EARNED FOR NOVEMBER, 1967		$2,285,868

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

COMMENT

A fiscal enterprise the size of state government must maintain substantial funds in demand accounts with banks. Tax receipts and other income are deposited during the clearing process in Clearing Accounts. After clearing, the funds are transferred to the Regular Accounts where they are available to meet the state's obligations. In addition to investing state funds, the State Treasurer designates certain banks as depositories of Federal Trust Funds.

Funds in both the Regular and the Clearing Accounts are held to the minimum necessary level. The deficits above reflect charges to our internal accounts that have yet to be charged to our accounts with the banks. They are the result of in-transit items in our normal bookkeeping cycle.

LIBRARY

DECEMBER 1967

A SUMMARY OF THE GENERAL FINANCES
OF THE STATE OF ILLINOIS

ADLAI E. STEVENSON, III — STATE TREASURER

TREASURER OF THE STATE OF ILLINOIS

SPRINGFIELD

ADLAI E. STEVENSON III
TREASURER

January 6, 1968

FRIENDS:

This Report covers the financial operations of the Treasurer's Office for December and the year 1967. It marks the end of my first year in office. A review of our record during this period would include:

1) The highest interest earnings for a calendar year in the State's history. Interest receipts totaled $23,142,020 or 10.6% above 1966 receipts, despite a sharp decline in fund balances. Total State fund balances declined $103 million from January 1 to December 31, 1967.

2) A full disclosure policy for the Treasurer's Office providing for the first time data as to the specific nature of State investments.

3) A number of important procedural changes for a more efficient office operation. These include a program to computerize the Warrant Division, and a shift to bank custody of all security holdings.

4) The development of an Investment Program designed to allocate State funds fairly among Illinois banks and put the funds to work where needed most.

These are but a few highlights of a very eventful and satisfying 1967. We look forward to an even more productive 1968, beginning with the allocation of more than $250 million in bank deposits on February 1.

With best wishes for a Happy New Year.

Sincerely,

Adlai E. Stevenson III
State Treasurer

Other Investments:		$ 37,146
	TOTAL	$ 197,335
TOTAL INTEREST EARNED FOR DECEMBER, 1967		$2,496,952

The safekeeping and investment of State funds is a principal function of the Treasurer. With the exception of four special State Authorities shown above, interest receipts on all investments are paid into the General Revenue Fund to assist in meeting the operating needs of the State. Interest earnings are affected by interest rates and the amount available for investment; both tend to fluctuate, making month to month comparisons difficult and possibly misleading.

COMMENT

A fiscal enterprise the size of state government must maintain substantial funds in demand accounts with banks. Tax receipts and other income are deposited during the clearing process in Clearing Accounts. After clearing, the funds are transferred to the Regular Accounts where they are available to meet the state's obligations. In addition to investing state funds, the State Treasurer designates certain banks as depositories of Federal Trust Funds.

Funds in both the Regular and the Clearing Accounts are held to the minimum necessary level. The deficits above reflect charges to our internal accounts that have yet to be charged to our accounts with the banks. They are the result of in-transit items in our normal bookkeeping cycle.
